Destination Drive Phase 2: The Newest of the FirstHome Communities Launches This Summer

April 3, 2011

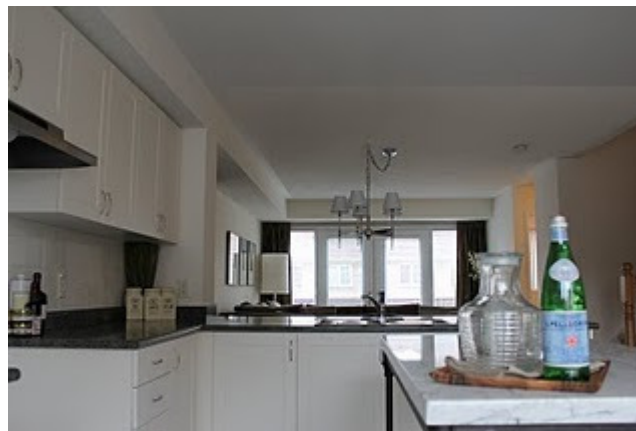

The second phase in the latest in [The Daniels Corporation's](#) phenomenally popular series of [FirstHome](#) communities is getting set to launch this summer!

[Destination Drive Phase 2](#) is located just off of Winston Churchill Boulevard, at Erin Centre Boulevard, in Mississauga.

The FirstHome program, for those who may not be familiar, combines an achievable deposit structure, incentive-driven low monthly carrying costs, and partnerships with financial institutions to make qualifying for a mortgage more accessible, so that individuals, couples, and families from all walks of life can better get a foothold in the housing industry. Units are built before sale, allowing purchasers to experience their actual home before buying - ensuring a good fit between lifestyle and unit.

Don Pugh, vice-president at Daniels, [told us](#) on a recent walk-through of [Destination Drive Phase 2](#) that finding the perfect balance between accessibility and lasting quality - all without sacrificing design - is what has led FirstHomes communities to be in such high demand.

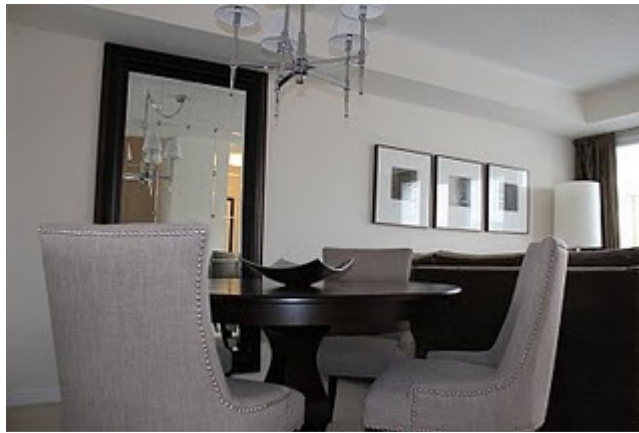

While checking out the site we took a few pictures of the model townhome at [Destination Drive Phase Two](#) - check it!

The kitchen is bright, airy and spacious

A charming dining nook leads into wider living space (note the deck off the back!)

Dining

The ample upstairs office

Attention to detail and quality is evident in the bathrooms, as it is through the whole model

The 130-home first phase of the Destination Drive community sold out last spring in only 5 hours (!), and there's no reason to doubt a similarly enthusiastic (ecstatic, might be a better word) reception for [Phase 2's](#) condominiums and townhomes.

Word is the launch date will be set soon. . .

Unit sizes for Phase 2 range from 411-square feet to 1603-square feet and start at \$145,900. To learn more about Destination Drive Phase 2, or about the FirstHome program in general, [click here](#). And check back soon for the latest buzzzz.
